

Search Committee update
June 24, 2020

Carney Sandoe & Associates are well underway with their process for finding excellent candidates for us to consider for our permanent head of school. Earlier this month their position description was written and widely distributed, soliciting candidates nationally and internationally. Our lead consultant, Skip Kotkins is already engaged in some preliminary interviews with potential candidates.

The process may be somewhat quiet on our end through the summer but as fall arrives the committee and then all members of the RMS community will begin to look more closely at the top candidates recommended by the search firm.

Paul Roach, HOS Search Chair
Kellie Mueller, Board Chair
